

Zadkiel AHARONIAN

Kubernetes Platform Engineer / Site Reliability Engineer / OSS Maintainer

Toulouse, France · hello@zadkiel.fr · +33 6 04 15 27 98 · github.com/aslafy-z · linkedin.com/in/zadkielaharonian

Hands-on Kubernetes platform engineer and SRE with 10+ years of experience, focused on self-service platforms, GitOps automation, edge/onboard systems, GPU/AI compute and reliable multi-cloud operations. Led a self-service Kubernetes platform product at CCL and internal platform modernization at Carrefour; OSS maintainer in the Kubernetes/Helm ecosystem, exploring agentic coding and AI-assisted platform workflows.

EXPERIENCE

Cloud Specialist · Airbus Aircraft Jun 2024 — Present
Cloud-native and edge platforms for next-generation onboard aircraft systems.

- Delivered MVPs combining edge computing, content delivery and Kubernetes-based infrastructure.
- Designed Kubernetes foundations for onboard application management, aircraft systems and rollout-constrained environments.
- Built Varnish-based onboard video/content distribution and Jetson/GPU real-time computer-vision pipelines.

DevOps Consultant · CCL Consulting Apr 2019 — Present
Kubernetes platform engineering and DevOps consulting in a multi-client service center.

- Led development of a **self-service Kubernetes platform product** and Go-based CLI to bootstrap clusters and application stacks from declarative config, with GitOps delivery, layered Helm/Kustomize composition, secret hydration and repeatable local/cloud/bare-metal environments.
- Developed a **Kubernetes compliance engine** for real-time security and best-practice visibility across developers, compliance teams and operators.
- Delivered platform maintenance and enhancements for 10+ clients using immutable infrastructure, GitOps workflows and modern security practices.

Site Reliability Engineer · Carrefour Dec 2020 — May 2024
Internal Kubernetes platform team for Carrefour product teams, operating shared clusters and platform services across GKE, Rancher RKE, Azure IaaS/Kubespray and AKS.

- Operated and modernized 10+ Kubernetes clusters across multiple clouds, up to 200 nodes each, serving 50 product teams.
- Led **RKE to AKS migration** with GitOps, immutable infrastructure, security guardrails and upgradeable platform baselines.
- Built self-service Kubernetes platform capabilities, resource-efficiency practices, PagerDuty workflows, runbooks and alert tuning.
- Developed and contributed to Kubernetes controllers/operators for multi-tenancy, logging and platform automation.

Software Engineer / Infrastructure Architect · Earlier engineering roles Jan 2016 — Dec 2020
Airbus Group Inc. and Aestetype Design: Python network/security automation, Tufin/NetBox/Centreon/Palo Alto/IPFabric data flows, Jenkins/Vault foundations, and Docker/Kubernetes product modernization.

OPEN SOURCE

Selected Cloud Native OSS MAINTAINER · CONTRIBUTOR
Maintainer: **aslafy-z/helm-git** (350+ stars), stakater/application, kube-logging/logging-operator; owner of aslafy-z/ctxdump. Contributor: Argo CD, Talos, Helm, Cilium, Kargo, Scaleway CCM, KServe, Renovate, Prometheus Operator, External Secrets, Pluto...

Kubernetes · Helm · Operators · GitOps · Logging · Networking

Production-grade homelab

Talos/Kubernetes GitOps lab used to validate real platform patterns: Cilium, KubeSpan, Rook/Ceph, SOPS/age, identity, observability and self-hosted services.

Talos · GitOps · Cilium · Rook/Ceph · SOPS/age

SKILLS

Kubernetes / Platform
Kubernetes · Talos · AKS · GKE · EKS · RKE · kubeadm · Cluster API · Rook/Ceph · Operators

Policy / Networking / Identity
Cilium · Calico · Canal · OPA · Kyverno · Gateway API · ingress-nginx · Traefik · Envoy Gateway · Keycloak/OIDC

GitOps / Delivery
Helm · Kustomize · Argo CD · Flux CD · Argo Workflows · Renovate · GitLab CI · GitHub Actions · Jenkins

IaC / Cloud / Edge
Terraform · Ansible · Packer · Vault · SOPS/age · AWS · Azure · GCP · Scaleway · Varnish · NVIDIA Jetson

Observability
Prometheus · VictoriaMetrics · Mimir · Thanos · Grafana · Loki · Fluent Bit · Fluentd

Programming
Go · Python · TypeScript · Shell · Rust · C · C++

EDUCATION

University of Kent
MSc, Computer Science - Cyber Security
Sep 2016 — Sep 2017

EPITECH
Engineering degree, Computer Programming
Dec 2013 — Dec 2018

CERTIFICATIONS

Certified Kubernetes Administrator (CKA)
The Linux Foundation · Dec 2021
Certified Kubernetes Security Specialist (CKS)
The Linux Foundation · Feb 2023

INTERESTS

AI / cloud workspaces
Open-source tooling · Cloud workspaces · Agentic coding · AI workflows · Developer experience

Sports & outdoors
Hiking · Rock climbing

Food & fermentation
Hot pepper sauces · Gourmet pickles · World cuisines

LANGUAGES

French Native
English Fluent
